

Customer Success Story

"WorkForce Absence Compliance Tracker (ACT) tracks intermittent leave hours with precision and provides real-time reporting into how these absences affect an employee's accrual balances and work schedule."

WorkForce Software Solutions

WorkForce Time & Attendance

WorkForce Absence Compliance Tracker

Customer Objectives

- Consolidate separate manual time and attendance systems into a single, automated solution
- Capture labor costs more accurately and recover costs sooner with more timely billing
- More efficiently manage complicated time tracking for a wide variety of job schedules requiring compliance with California's extensive and complex leave laws

The Solution

- WorkForce Time and Attendance
- WorkForce Absence Compliance Tracker
- Automated integration with Oracle for Payroll and HR processes

Key Benefits

- Streamlined payroll processing
- More effective management of overtime, leaves, and absences
- Improved compliance with labor laws
- More frequent billing – monthly instead of quarterly
- Ability to track more labor metrics with better data
- Saved over \$17K per year by reducing manual time tracking labor costs
- Full payback on investment in 8.8 months
