WorkForce Software Solutions
Time and Attendance

Customer Objectives

- Less time intensive and more accurate time and attendance management
- Ability to track multiple job assignments in multiple departments in a single pay period
- Flexible and customizable solution to accommodate the growing size and complexity of the university's workforce

The Solution

- Automated time and attendance processes with WorkForce Time and Attendance
- Time and attendance data collected using both web employee self-service and bar-code readers
- Solution deployed to 400 work sites and 6,200+ employees

Key Benefits

- Improved payroll accuracy and substantial reduction in payroll overpayments
- Reduction of payroll headcount from 5 to 3 FTE resources, allowing staff to focus on more value add activities
- Improved productivity of employees and managers
- Reduced paper costs due to eliminating paper timesheets
- Full payback on investment in 3 months with 430% annual ROI
