

WorkForce Analytics

Access to accurate, actionable metrics is more important than ever before. With true visibility across your entire workforce, WorkForce Analytics empowers strategic decision making and ensures that your organisation is making the most of its investment.

Designed to transform raw data into actionable information, WorkForce Analytics brings powerful ad-hoc reporting capabilities to the WorkForce Suite. Simple and intuitive, WorkForce Analytics empowers users to quickly and easily build custom views of labour-related data and share that information with executives, supervisors, and co-workers across the business.

Improve Organisational Performance

WorkForce Analytics helps you understand how labour activities affect financial results, revealing fresh ways to improve performance. Staffing plans and schedules become ever more effective.

Accelerate Strategic Decision Making

WorkForce Analytics provides an unmatched degree of visibility into your labour activities by location, job function, division, and across the enterprise. Patterns become instantly recognisable, best practices emerge and managers have the concrete, data-driven information they need to make timely decisions regarding work schedules, labour mix, and the right practices to maximise productivity.

Access Your Data with Easy-to-Use Tools

With WorkForce Analytics, WorkForce Software makes powerful analysis and reporting capabilities accessible via a simple drag-and-drop environment. Custom views of your data are at your fingertips, all in the cloud.
